

EDGE UTILITIES

For small businesses, the right energy fit is a big deal. It's critical to your bottom line, and your operational effectiveness. But finding a better deal in an energy market that is complex and constantly changing can be difficult.

That's why we've brought Edge Utilities to the market. An efficient on-line service that secures you a competitive rate for your electricity. Our service is efficient and professional – let us take the worry and stress out of energy pricing for you.

What is it?

Edge Utilities is an on-line service for businesses looking for a better deal. It's electricity and gas procurement, made easy.

Provide us with a few details about your business energy needs, and we go to market on your behalf. We review and compare responses against your specific requirements and come back to you with the most competitive and best-fitting energy deals. We then help you get your new contract in place with your chosen retailer.

It's as easy as that.

How Do We Achieve Competitive Pricing?

Our aim is to achieve competitive energy rates, and a better price on your metering charges.

Our competitive edge is our reputation and the strong relationships we have developed with energy retailers.

This service doesn't cost you anything. All decision-making is independent and we find the best deal to suit your business requirements.

Value-Added Services

Don't get any nasty surprises when you receive your next electricity bill. If you have a smart meter, you can track how much you're spending on your electricity. Our online portal will provide you with information regarding your consumption and energy costs in an easy-to-read format.

Connect with Edge

A better business energy deal starts here. Edge wants to make sure that small businesses aren't left behind. We know that energy costs form a large part of your operational expenses and we're here to help.

Leverage our strength and experience in the energy industry to secure a deal that saves you money. Go to www.edgeutilities.com.au to submit your details for a better deal.

Your Team. Your Edge.
Electricity. Gas. Water.
